

Oilfield mud pump bearings, Timken (Torrington) N-3483-A BEARINGS FOR OIL PRODUCTION DRILLING

Details

Brand: Timken

Model No.: N-3483-A

Inside diameter: - mm

Outer diameter: - mm

Thickness: - mm

Series: Bearings for Oil Production & Drilling(Mud pump bearing)

Price: Please send email to me if any inquiry

N-3483-A Bearing for Oil Production & Drilling is supplied by Bearing-wholesales , all of our Mud pump bearing are made according to international standard ,We have large quantity of ready stock of N-3483-A bearing, to meet the demand of customers, because of our cost-effective products,we are very popular in the bearing market. welcome to contact us for detailed information, we sincerely hope to have chance to establish friendly cooperation in dealing with N-3483-A bearings.As one of the largest distributor for worldwide customers,we're engaged in supplying the most comprehensive types of bearings.To meet the widely requirements.

Oil Drilling Equipment Machinery Special bearing

Oil production demands the most from equipment and ZVL delivers the uptime reliability that maximizes profit. Our bearings meet the most stringent tolerances ensuring equipment runs at maximum load for peak output.

Full-Service Manufacturer, Refurbisher and Engineering Partner

We are a veteran supplier of the oil industry with bearings in operation in nearly every conceivable environment and climate land and marine. We provide rotary table thrust bearings, cylindrical radial roller pump bearings, swivel and crane hook bearings and custom machined bearings. We also provide bearing reconditioning and rebuilding to companies who want to minimize downtime and maximize the lifetime of existing equipment.

Since 1926, the ZVL and the ZKL brands have meant quality roller bearings in Europe. In April 1991, the ZVL-ZKL Bearings Corporation North

American headquarters opened in Indianapolis, Indiana, in the United States.

The ZVL-ZKL North American headquarters contains millions of dollars worth of inventory in a 16,000 square foot facility and is located near the

Indianapolis International Airport for fast shipment to distributors throughout the U.S.

With hundreds of stock-carrying distributor locations throughout the United States, ZVL-ZKL Bearings can meet your specific needs over North

America quickly and efficiently.
